- ❖ Burning shall be conducted in compliance with the following meteorological and timing considerations:
 - Begin burning no earlier than one hour after sunrise, end it the same day and no later than one hour before sunset, and make sure that a responsible party is present while the burn is active and the fire is progressing.
 - Burning shall not be commenced when surface wind speed is predicted to be less than 6 miles per hour (mph) (five knots) or greater than 23 mph (20 knots) during the burn period.
 - Burning shall not be conducted during periods of actual or predicted persistent low-level atmospheric temperature inversions.
- ❖ Only trees, brush, grass, leaves, branch trimmings, or other plant growth may be burned on the property of which the material grew. **The following items shall not be burned:** Garbage, refuse, paper, electrical insulation, treated lumber, plastics, non-wood construction/demolition materials, heavy oils, asphaltic materials, potentially explosive materials, chemical wastes, and items containing natural or synthetic rubber (tires), furniture, carpet, and other decayable and non-decayable waste, including vegetable matter and animal and fish carcasses. This would also include domestic waste such as kitchen garbage, cardboard boxes, packaging, and clothing.

I have reviewed the **Burn Permit Guidelines** and agree to comply with all applicable requirements for this permit.
